FOREWORD

This is the second of the annual bulletins of departmental statistics issued by the Department of State and Finance for public information as authorized by Section 802 of the Administrative Code. The previous bulletin was for 1924. The success of the handbook for 1924 has encouraged the addition of some charts and some new tables.

The purpose of this book is to bring together in one bulletin the statistical tables of general interest contained in the annual and biennial reports of the departments. Heretofore no attempt had been made to bring these statistics together in one handbook for general use.

Financial statistics of the State are omitted in this volume because they appear in detail in the Budget, copies of which may be had upon request. Specialized statistical reports not of general interest are listed on the following page. The summaries only of most of these reports are included in this Year Book.

Dr. C. A. Kulp, of the University of Pennsylvania, was special editor of this volume. Credit is also due to statistical representatives in the various departments who cooperated promptly and heartily in preparing the tables. The index refers to the tables by subject matter.

[1]The samples which actually constitute violations of the pure food regulations are an extremely small percentage of all the foods offered for sale in Pennsylvania. Because of the fact that all samples taken by the food agents are selected with great care the number of violations is surprisingly low and is evidence of the general observance of the ure food regulations.

[1]The decrease in the number of dogs reported killed by police officers is due to the more general observance of the law requiring owners to have dogs properly licensed and tagged, resulting in fewer stray unlicensed dogs; and to the regulation requiring the tips of the ears to be presented when claim is made for the fee allowed. Investigation, when the enforcement of the law was taken over by the Bureau of Animal Industry (1922), disclosed that fraudulent claims were being presented. Several constables were convicted and sentenced to jail.

NOTE: The above summary includes all figures available prior to January 1, 1925 (Philadelphia not included). During 1915–16–17–18, the counties did not report any monies paid out for damage to poultry. In 1923 the investigation and appraisal of damages to livestock and poultry was placed in the hands of local appraisers.

The figures showing number of dogs licensed and fees collected from 1915 to 1921, include Pittsburgh and Scranton; in 1922–23, do not include Pittsburgh or Scranton. Up to January 15, 1922, the license fee was set by the Counties. Several counties set the fee at $2.00 for a male or spayed female and $4.00 for a female dog. From January 15, 1922 the fee has been uniform throughout the State: $1.00 for a male or spayed female and $2.00 for a female dog. 1922 fees include $14,377.00 fines. 1923 fees include $52,952.00 fines. 1924 fees include $47,346.50 fines.

Note: A law made effective January 1, 1908, required the licensing of all stallions and jacks standing for public service; the 1921 amendment increased license fee and made it unlawful to stand any unregistered stallions for public service. This is largely accountable for the decrease in licenses issued after 1921.

1923	53	105	158
1924	38	131	169
Average per year	33.7	110.3	144.0

Note: It is safe to say that 50 per cent of the hunting accidents occurring each year in Pennsylvania are self-inflicted through the careless use of firearms. This is an appalling loss, but the same number of persons engaged in practically any other strenuous outdoor recreational pursuits during a like period will show almost the same percentage of accidents.

[1]For the year 1922 only transfers between districts within the State were deducted. For 1923 transfers between districts and within districts were deducted, giving as nearly accurate a net enrollment for the entire State as is possible to secure. In 1923 there were 62,459 transfers within districts and 75,023 between districts—a total of 137,482.

[1]Since publication of 1924 "Departmental Statistics" additional figures were received and institutions not included last year have since reported. The data thus furnished is included in the 1925 edition.

[2]Cameron, Fulton, Juniata, Pike, Snyder, Sullivan, Union and Wyoming Counties have no homes for the poor.

[3]Obtained by dividing the current expenditures by the total number days support of inmates. These figures are only approximate.

[4]Not reported.

[5]Supported no inmates during year.

[6]Includes receipts for maintenance of mental hospital.
